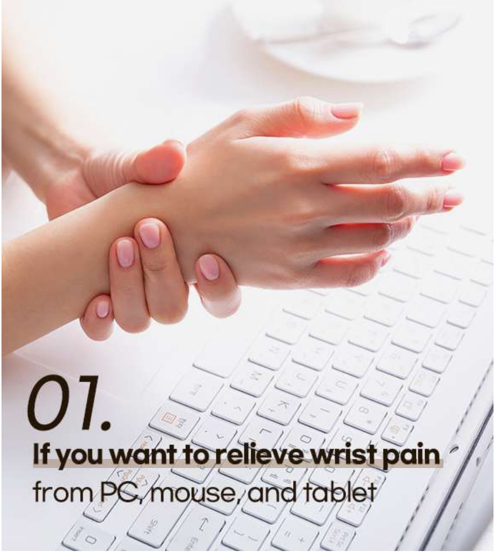
CAREME Daul is
RF(Radio Frequency) and EMS(Electrical Muscle Stimulation)
patch-type massage device you don't need to rub it
with highly reliable, conductive hydrogel.

simultaneously and stimulates dermis layer and
muscle—also, it is a product that
helps **massage body with deep heat and electric**
stimulus to relax muscle and boost blood circulation etc.

No more troublesome massages!
RF+EMS simultaneously!
"Muscles + dermis".
Maximize massage at the same time.

"If it's like this right now, "A must-have item".



01.

If you want to relieve wrist pain

from PC, mouse, and tablet

02.

If you’re prone to neck or shoulder stiffness, driving on long stretches of road

03.

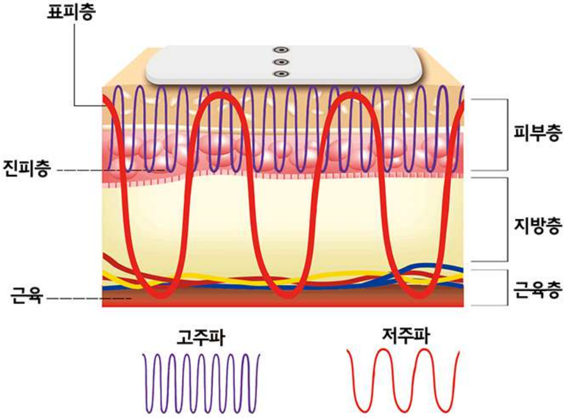
When painful wrist and muscle strikes, carrying baby and doing housework

04.
If you enjoy active sports
such as golf and tennis

CAREME Dual

01

It's a patch-type RF. To the dermis.
It reaches deep.



simultaneously and stimulates dermis layer and muscle with only one product

CAREME Dual generates deep heat towards muscle and dermis layer and stimulate electrically using RF and EMS to help loosen body tension and increase blood flow circulation.

What’ s RF?

It refers to provide deep heating to dermis layer using radio frequency (RF) of CAREME Dual its with massage effect.

*Deep Heat: It means increase in body temperature when exposed to the radio frequency (RF).

What’ s ‘EMS’ ?

It means EMS frequency from CAREME Dual that helps to contract and relax muscles and improve muscular strength. EMS massage does not target only one part—you can massage entire body including arms, legs, back and waist.

02

The areas where it clumps and stings,
Please release it with EMS.

EMS stimulation stimulates the inner muscles.
Massage through contraction and relaxation.

“Use it like this”

Please be fully aware of the precaution

People with Sensitive skin or Skin Disease or Skin Allergy

After shaving, People with Skin Wound or Scratching

Pregnant or Lactating Women

Children Below Age of 12

Heart Disease Patients and Medical Device Use (Medical electronic device, Cardiacpacemakers, Defibrillator etc.)

Do not use if you undergo medical treatment for disease (If you' re pre or hypertension.)

Do not use if you have neurological disorder like uncomfortable tingling or prickling in specific parts

Do not use if you suffer from acute inflammatory condition or bleeding (Do not use on wounded area)

And do not use on ' joint'. (Since this device is designed to massage dermis and muscle, the user will bear all responsibility for any issue or problem occurring when using the device on the 'joint'.)

Don't damage to patches

Please do not use it on the same area continuously.

Please check it carefully

- When adjusting the dial, please start from Lev. 1

- Don't damage to patches

: Do not change or revise this device. This device is designed to generate imperceptible electrical current for massage. Otherwise, it fails to provide electrical stimulation evenly, which means it may not be safe.

- Patches with poor adhesion please replace it with a new patch

: If a patch is damaged, the color changes, or it does not adhere well during use, please replace it with a new patch. Otherwise, it fails to provide electrical stimulation evenly, which means it may lead to side effect.

Please do not use like this

- Patches with poor adhesion please replace it with a new patch

- Please do not use it on the same area continuously (Don't sleep while attached it)

- Don't use it in wet, humid bathrooms or saunas.

- After exercising or sweating situation
- Electric blanket(Heating pad), Water heated mattress pad etc, high temperature and situation where electricity can occur
- Not completely dry after taking a shower
- Situation when you applied with body lotion/ oil, sunscreen etc(it may lose adhesion)
- If you attach patches around metal products such as necklace and belt
