Thank you for using our products

Create the best work, and we will simplify the process for you

HOW TO EDIT MOCKUP
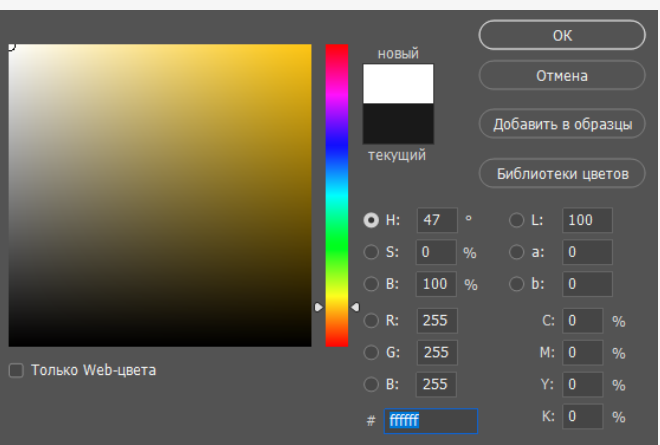

How To Edit Mockup

Basic Settings

> Background

> Color

> Design

Background

You can change the background color, adjust the vignette, and use any of your images for the background

Color Background

Open the BG group, layer «Color BG»

Choose any color and control the process in real time. Then click OK

Double click

Vignette Background

Open the BG group layer «Gradient dark»

Edit the opacity for the "Gradient dark" layer until you reach the desired result

Different Background

Insert and position any of your images on new layer for the background (texture, landscape, interior, etc.)

! Layers in some products may vary.
These may be additional backgrounds or shapes.
You can edit them by the same principle, disable and enable their visibility.

Colors

You can adjust any color of the object
and its elements in two clicks,
control the result in real time

Colors

Open the «DESIGN and COLOR» group
and the «COLOR» subfolder or layers

ANY COLOR CAN	ANY COLOR CAP

To adjust the color of objects (or its elements),
select the appropriate layer in the name,
double-click on the icon and adjust the
color in real time.

! Depending on the type of product,
from 1 to 10 (maybe more) a layer
for editing colors and template elements

decem**ber** .dsgn creative team

Design

Use any design for packing.

Smart objects

Open the «DESIGN and COLOR» group

Volume Can (turn on the... using the drop layer)

Your Design (double click)

Color Cup

Color Can

Double-click on the icon of the smart object with the corresponding layer name

Paste your design, pattern, print into the open layer and save

! Depending on the type of mockup, the number of smart objects may vary.

Good projects to you
