Connectivity in detail

Explore the initial setup process of installing an AAWireless adapter.

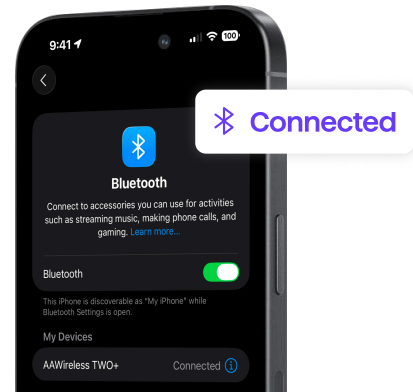

Step 1

Press and hold the button for **two seconds**, until it turns **Solid Purple**.

Step 2

Connect your phone to the adapter via **Bluetooth**.

Step 3

The adapter establishes a **Wi-Fi connection** to your phone.

From now on...

Connections happen **automatically**, ensuring a seamless wireless Android Auto or CarPlay connection with your car!

Frequently Asked Questions

Still have questions? We have the answers!

Is a Bluetooth connection still needed once the Wi-Fi link has been made?

Both Android Auto and CarPlay require Bluetooth for certain functionalities and to stay connected. Wi-Fi only replaces the USB connection.

How to overcome interference issues?

You can try different Wi-Fi channels in the AAWireless app to reduce disconnections in areas with potential interference.

Experiencing difficulties with connections or have further inquiries?

Don't worry! The AAWireless technical team is here to assist you at support@aawireless.io. We aim to reply within 24 hours.

Excellent working and easy set up

Fastest connection i have used. Work the first time and all the time. Thank you for making something that actually work as advertised
